

# **Possible Locations for New Hispanic/Latino Restaurant at New York City**

Omer Faruk YILMAZ

October 30, 2019

## **1. Introduction**

Demographics of New York City shows that New York City has very diverse population of nearly 9 million people. This means 1 / 3 of New York state lives at New York City. And this population increasing rapidly each year. Also, Demographics of New York City demonstrate that more than half of the people is immigrant and this percentage is rise continuously.

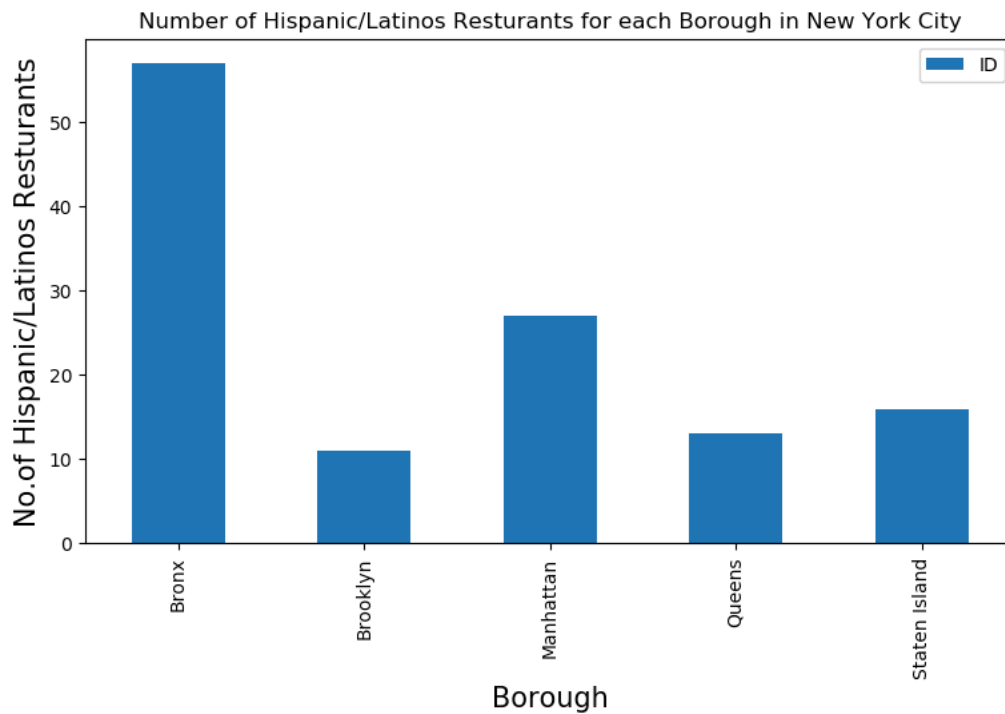

In this diversified city, nearly half of the population and most of the immigrant is Hispanic/Latino race. In this project, we will research restaurant of this huge population of Hispanic / Latinos because food is one of the most fundamental needs for humans and it represents habits of human races clearly.

## **2.Data**

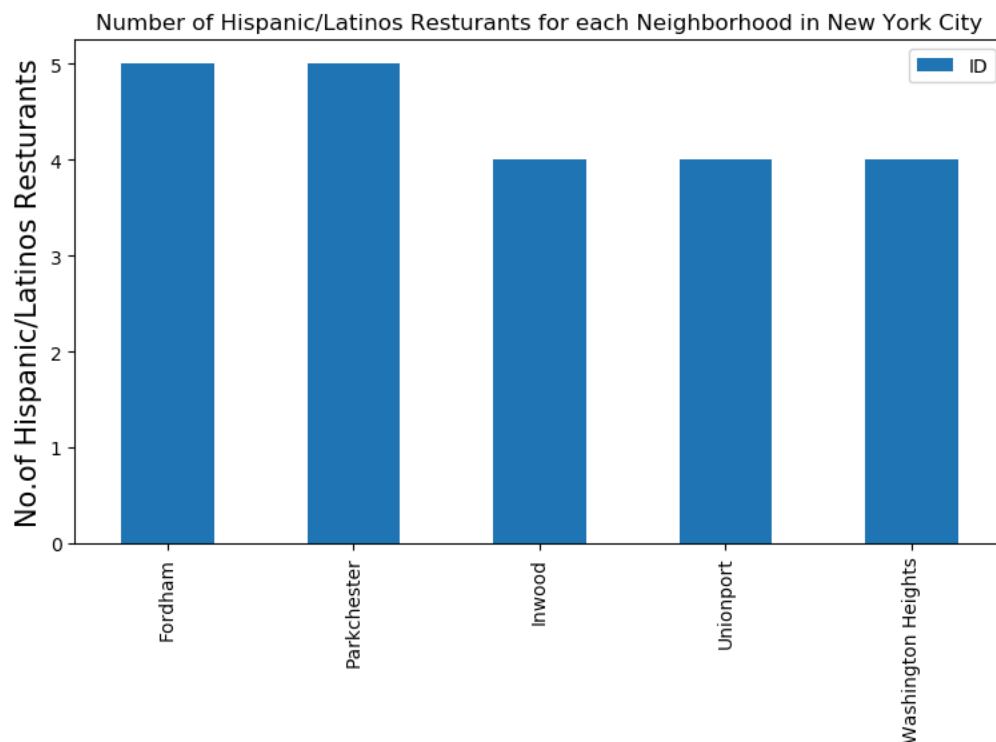

Data collected from Foursquare API. All Hispanic / Latino restaurants ' name collected with their location information and venue information such as ID , like, tip, rating at New York. Restaurants which contain location or venue information deleted to get accurate result.
